The Bill Introduced in the Legislature Yesterday.

prevent an accident.

2. Every railroad company or person

Francisco Chronicle, under date line of Bowie, Arisona, January 16, contains the following interesting story of another railway project, which, if completed, will add much to the prosperity of this territory:

of this territory:

"William Garland, of Los Angeles, the promoter of the Gila Valley, Globe and Northern railway, was here to-day, with several stocholders. A. C. Laird, of Los Angeles, Julius Liberman Mr. Wilcox, J. Solomon, of Solo

CHECKING UP TAXES.

Union Pacific Assessments Considered Prior to Payment.

George O. Scribner, chief clerk of the Union Pacific tax department with headquarters in Cmaha, is in the city Vellow Jacket. nendquarters in Cmaha, is in the city checking up the levy for the year just closed in order to make payment by March 1, says the Denver News. He states that the taxes of the roud in lansas are nearly at the control of the roud in lansas are nearly at the lansas are near checking up the levy for the year just closed in order to make payment by March 1, says the Denver News. He states that the taxes of the road in Montana, Idaho, Nevada, Utah and Kansas are nearly all paid. Under a recent ruling of the court, the Gulf road must meet the taxes of last year on its own account. The levy for 1892 on the Gulf system amounted to 3260,600. Mr. Scribner is one of the brightest young business men in the Union Pacific's employ. He will visit quite a number of country seats in Colorado before leaving the state. est young business men in the Union Pacific's employ. He will visit quite a number of country seats in Colorado before leaving the state.

Union Pacific Earnings.

The Union Pacific's earnings for ten months of last year show a falling off of seven and one-half millions, as compared with the same number of months in 1892, says the Bailway News Re.

pared with the same number of months in 1892, says the Railway News Reporter. The falling off in the last three weeks has been \$650,000 as compared with the corresponding weeks of 1892. Mr. Lickinson's report says that the shrinkage is due to the closing down of the mines in the west, that action put an end to the immense business of the Union Pacific is the hauling of ore coal, timber and supplies. One ness of the Union Pacific is the hauling of ore, coal, timber and supplies. Our silver friends in the west are pointing to this as one of the many shocking examples with which the country is to be visited on account of the depression in the white metal. The closing down of western silver mines has most certainly had a very farreaching effect in assisting to depress the country's commerce.

The legislators leave for Logan over the Union Pacific at 7 o'clock this morning.

Frank Washburn, of the Pacific fotel company, left for Pocatello last

Midwinter fair tickets will go on sale bere on January 23, one day earlier than previously announced.

The Southern Pacific disburses over \$1,000,000 monthly to its employees. Theron Gaddes, auditor of the Rio Grande Western, with headquarters in Salt Lake, is in Denver.

Several Salt Lake sports will go to

Hand in some one of the dubes, from transfer out into the tubes, from their sides, are hairs of cilia, which connect with nerve cells and fibres that branch off from the auditory nerve. When the head moves the finid moves, the cells are "fired off," a nervous current is sent up to the brain,

school for \$18. Midgley & Sons made a

WANT THEIR CHECK BACK.
White & Snelson asked that their certified check and bid on the Oquirrh school building be returned to them. The terms of the bid being that the check was to be returned on the 8th inst. unless the contract was awarded to them which had not been done. They stated that they would increase the amount of the check so as to conform to the amount of their new and increased bid of \$52,000 instead of \$18,-000.

be retained until the bond and contract are executed with the board.

Also that the superintendent of buildings be directed to pince shelves in the teachers closets at the Washington school, and that the superintendent of buildings be authorized to place corrugated ceiling from over the boiler bresching in all of the boiler rooms where the space between the smoke flue and the ceiling does not exceed its inches.

All the recommendations were adopted.

WASATCH HEATING ADDARDS OF BOND OF BOND

WASATCH HEATING APPARATUS.
The committee on sites and buildings reported that they had examined the heating apparatus at the Washington Sapital.

No other remedy is so reliable, to case of sudden colds, or coughs, of to any and all derangements of the throw any and all derangements of the throw torily, although the amount of air derived to the fifteen class rooms was hardly up to the requirements recommended that when the contractor supplies the cold air connections for the basement rooms and puts additional direct radiation in the library that the plant be accepted.

Mr. Dooly moved that the matter come up before the board again when the defects had been remedied.

Adopted. WASATCH HEATING APPARATUS.

Second—That the proposed change of disc thermometers to mercurial ones WHEAT—Quiet: holders offer moder-tiely; No. 1 California, 5s 44% 5s 5d; No. 1 red western winter, 5s 200% \$\mathbb{P}_{2}d.

CORN—Steady; mixed western, 4s 1d.

BOND APPROVED. The bond of the treasurer was approved in the sum of \$300,000, Messrs. J. E. Dooly, W. S. McCornick and Matthew Cullen being the sureties.

SCHOOL LAW REVISION. Mr. Young of the special committee on school law asked for an extension of time for the committee to make its report.

Granted.

CLERK'S ANNUAL REPORT. The clerk's annual report was re-eived and referred to the finance comceived and referred to the finance committee. It is a voluminous document of fifty pages of closely type written matter setting forth in detail the receipts and expenditures of the board for the year ending Dec. 31, 1833, the same will be ordered printed in accordance with the law.

The receipts and expenditures for the year were as follows:

Treatment of Varicose Ulcers.

The reason why varicose ulcers are so difficult to heal is that the persons affected with them generally have to earn their living by manual labor. The great majority of these patients are to be found among day laborers, whose occupation obliges them to be constantly on their fest. The fact is that reat, and rest in a horizontal position, is the most efficacious treatment of this disorder. By this I do not mean that the local application of remeiles is of no use, but I mean that they only take a secondary part in the treatment, and that any amount of dressing, if rest is not enforced, is absolutely powerless to insure recovery.

After having stated these premises. I wish to say a word in favor of the treatment of varicose ulcers by chastic compression with a sponge, as recommended by Dr. Krisch, of R. estau, and to adopt his method of procedure.

If we have to deal with a deep ulcer we must begin by packing it with indoform cause, taking care that the gause does not rise above the level of the edges of the wound. The edges, as well as the skin about them, should be powdered with dermatol and covered with absorbent cotton, and on the top of all this should be applied a large sponge that has insist been wetted and tren squeezed out. The surface of this sponge should, whenever point side, be larger than the ulcers in every direction.

direction.

When the ulser is a flat one or has already begun to granulate it is not necessary to interpose any lodeform gauze, but a cloth scaled in acctate of aluminium can be applied directly, and on the top of that some impermeable substance and then the sponge as in the preceding Case.

but a cloth soaked in acctute of alumining cannot be applied directly, and on the fine committee report in the consideration of which it was resolved to return this and all checks of bidders for that contract.

A. B. Gibson requested that the final payment on the Wussich school building be made to him.

Committee on sites and buildings.

MORE TIME GRANTED,
The committee on sites and buildings reported that as yet they had been unable to procure a school room in the Ontario addition and requested further time which was granted.

ADDITIONAL ROOM.
The same committee also asked that authority be given them to fit up the north basement room in the Fourteenth school for use for school purpose and also that authority be granted them to calcimine the building rented from Mr. Helss in Poplar Grove addition.

The desired authority was granted in both cases.

NOT AT PRESENT.

The same committee also recommended that the proposition of C. D. Dart to render architect's services to the board for \$1,000 per annum be released compression, gives surprising rejected, for the peason that the hoard care.

By these different meeting and the close of the legant of the same committee also recommended that the proposition of C. D. Dart to render architect's services to the board for \$1,000 per annum be rejected, for the peason that the hoard claims to have gared upon the results of the legant of the same of the peason with the assistance of massage, the edges of the ulcer should be continued until the close of the same of massage. The close of the legant of the proposition of C. D. Dart to render architect's services to the board for \$1,000 per annum be rejected, for the peason that the hoard close of the legant of the peason produced by a simple layer of antisepted of the legant of the peason which are the propose and also that authority be granted to the peason of the

NOT AT PRESENT.

The same committee also recommended that the proposition of C. D. Durt to render architect's services to the board for \$1,000 per annum be rejected, for the reason that the board was not at present needing an architect.

CHECKS TO BE RETURNED.

Also that the certified checks of the bidders on the Oquirrh school be returned excepting that of the successful bidder, which they recommended be retained until the board and contract are executed with the board.

Also that the superintendent of the successful bidder, which they recommended be retained until the board and contract are executed with the board.

Also that the superintendent of the successiful bidder, which they recommended be retained until the board and contract are executed with the board.

Also that the superintendent of the successiful bidder, which they recommended be retained until the board and contract are executed with the board.

Also that the certified checks of the bidders on the Oquirrh school be retained until the board also that the certified checks of the bidders on the Oquirrh school be retained until the board and contract are executed with the board.

Also that the certified checks of the bidders on the Oquirrh school be retained until the board and contract are executed with the board.

What the Americantzed Encyclopædia Britannica is? It is the most complete and diversified

Library of Entertaining Literature

Ever issued from the press. Open its pages where you will, you will find something to attract and interest you.

If you are fond of history, it contains the finest collection of histories in the world, embracing every nation of ancient and modern times, from hoary Egypt, with its civilization running back for thousands upon thousands of years, to the latest born of the great family of nations. And they are not dry as dust histories, either, giving nothing but dates and mere descriptions of events; but genuine historical works, as interesting as Macaulay's History of England, and some of them from Lord Macaulay's pen. Or if you have a taste for travels and descriptions of strange countries and their peoples, the AMERICANIZED ENCYCLOPÆDIA BRITANNICA will lead you with the famous voyagers and explorers among the sunny islands of the Southern Seas, through the dreary wastes of Arctic ice, across the pathless wilds of Africa; or among the quaint peoples of the East. It will tell you of the vanished civilization of Peru, of the growth or subsidence of feudalism in Europe, of the social and governmental polity of modern nations. And if, while you are reading, you come across some reference to a great man with whose deeds you are unfamiliar, the Americanized Encyclopædia Britannica contains a perfect library of biographical memoirs, to which you can turn with the certainty of finding just exactly what you want to know.

Are you interested in science? The Americanized Encyclopædia Britannica will tell you, in clear, understandable English, all about any science you may wish to study. Are you curious about mechanical inventions? The Encyclopredia describes them all. Or perhaps you want information about some industry or mode of manufacturing? Again the Encyclopædia is ready to your hand; a moment's turning of its pages brings the proper heading to your eyes, and there before you lies a complete and exhaustive account of the entire subject. In short, whether you want amusement for an idle hour, solid instruction for more serious moments, or quick information about any matter as to which you are in doubt, the

IS THE MERY THING YOU NEED.

Why Americanized Encyclopædia Britannica? Because that is just exactly what it is—the Encyclopædia Britannica revised and amended for American use. You want your Encyclopædia to tell you about Grant and Sherman and Sheridan and Hancock and Cleveland and Harrison, don't you? Well, the Encyclopedia Britannica won't do it. But the Americanized edition will. The latest edition of the original Britannica was compiled fifteen years ago, and gives no biographies of persons who were living at that time. Maybe you don't know that? The Americanized edition contains hundreds of new biographice, specially written for its pages, and including every prominent man or woman in the world.

You want fuller information about an American State than about an English county, don't you? You won't get it in the Encyclopædia Britannics, but you will in the Americanized Encyclopedia Britannica. Because the former work was compiled specially for the use of Englishmen, while the latter has been amended and revised especially for use in American homes. See?

New Articles on American Subjects, · · New Maps, New Biographies, · ·

Every interesting feature of the original Encyclopædia Britannica preserved, and the whole work revised to date. Such is the

Americanized Encyclopædia Britannica.

OUR SCHEME.

By giving an order for one year's subscription to this paper we will deliver the complete set of the Americanized Encyclopædia Britannics in ten splendidly bound Cloth volumes on payment of \$5.00, and your signing a contract to pay \$2.50 for ten consecutive months, thirty dollars in all.
